The future of cloud

FILEBOX

Filebox is a storage service as well as a file-sharing service focused on collaboration and creativity. Its purpose is to group all your data in a cloud to make them accessible from your different devices, by different people and safely.

Share, Accessibility
Security, Simplicity

Our services :

- Remote storage, accessible from our web site or directly in your file explorer
- File sharing, instantly synchronised
- Garanted security

***We are using brand new technologies
to develop our project :***
